SUMMARY

UI/UX Developer with a background in Electrical and Electronics Engineering and corporate experience at Amazon. Skilled in user research, wireframing, prototyping, and creating responsive designs. Proficient in Figma, Adobe Creative Suite, and React.js. Passionate about applying design thinking and front-end development expertise to craft engaging, user-friendly, and accessible digital experiences.

WORK EXPERIENCE

Strategic Ventures Company, Role (Frontend Developer Intern)	Present
Currently working as a Frontend Developer Intern at Strategic Ventures, contributing to the development of a Rehabilitation Management System (RMS) . Responsible for designing and developing responsive and user-friendly web interfaces using HTML, CSS, JavaScript, React, and Tailwind CSS. Building reusable React components, implementing modern UI/UX practices, and ensuring responsive design across different devices and screen sizes. Collaborating with the development team to integrate frontend features with backend services through REST APIs. Participating in debugging, testing, and improving application performance to deliver a smooth user experience. Actively involved in code reviews, version control using Git, and following best practices to maintain clean, scalable, and maintainable frontend code.	
Amazon Company, Role (Associate ML Data Operations)	05/2024 – 11/2024
Developed and implemented strategies to maintain targets up to date. Engaged in friendly conversation with the team to meet the needs of the business goals. GO-AI provides human support to Amazon fulfillment facilities with the goal of enabling hands-free active storage through visual annotations on videos/images. Collaborate with cross-functional teams to streamline workflows and minimize production defects. Utilize Ms Excel to analyze production data to identify and implement process improvements.
